

Basic Detail Report

And If In A Thousand Years (2/5)

Date

2017

Primary Maker

Hough, Patrick

Medium

Single Channel HD Video

Description

Merging CGI animation, laser scanning and live action footage, And If In A Thousand Years takes us to an archeological site in California where the remains of an epic 1920's Egyptian film set have been uncovered. Untethered from its ruined plasterwork body, a CGI Sphinx now stalks the landscape - a digital ghost of the original filmset decor - in search of identity and purpose.
