

Basic Detail Report

Signature Piece

Date

2018

Primary Maker

Atherton, Kevin

Medium

3D Prints in coloured sandstone on a circular Kilkenny limestone base

Description

'Signature Piece' is a 3D Print in coloured limestone that could be thought of as a double signed self-portrait. Taken as 3D scans within minutes of one another, one figure holds up his arm whilst the other figure leans in as he signs his arm with his signature. The work addresses authorship and identity and refers to a real tattoo of my signature that I had tattooed on my arm in 1970 as an act

of signing myself as a work of art.

Dimensions

Two figures both 34cm high, circular base: 15cm x 2cm.
